-led grantmaking

## Big Check Energy!

REDISTRIBUTING POWER, WEALTH, AND POSSIBILITY.

## WHO IS TZEDEK ?

[LEARN MORE](#)

The Tzedek Social Justice Fund (Tzedek) has been supporting the social justice work of grassroots organizations, collectives and cooperatives, nonprofits, and local leaders since the late 1980s. We fund work that is centered on LGBTQ Justice, Racial Justice, and Dismantling Antisemitism in alignment with our mission to redistribute money, resources, and power to support systems change and community healing in Asheville, North Carolina. Through adaptive, trust-based philanthropy, we resist oppressive systems and work to transform our collective home into a place where everyone flourishes.

## WHAT IS CLG ?

[LEARN MORE](#)

Community-Led Grantmaking (CLG) is a participatory approach to grantmaking that recognizes and elevates community knowledge and shifts decision-making power to the community members who are most impacted by oppression in our communities. CLG seeks to find solutions to the inequities in our communities by asking our communities what solutions would best work for them—shifting decision-making power to community members and resource flows directly into our communities.

## WHAT ARE WE FUNDING ?

[VIEW FULL RFP](#)

Tzedek's Community-Led Grantmaking Committee (CLGC) will be providing between \$5,000 and \$250,000 to selected groups in support of their community vision. The CLGC requests proposals from groups to create **Community Events** and to build, launch, and lead **Community Collaboration and Resource Hubs**.

## HOW TO APPLY ?
